Dear FCC:

I am disturbed by the proposed fee increase, and would be impacted negatively by it. I live on a fixed income, and need TracFone's Service cost to stay as it is. Pass your costs on to people who can better afford it like contract users on Verizon, Sprint, or AT&T, but please leave us alone. Thank you.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,
